## MAY FORCE DIMMING OF CAR AND AUTO LIGHTS

Council to Have Ordinance to That Effect—Change Street.

Mishawaka may soon have an ordinance compelling automobile and street car headlights to be dimmed when passing through the city if motion made by Councilman J. H. Beiger at the council meeting Monday night bears fruit. Street cars may also be required to moderate their speed when traveling Mishawaka's streets.

Beiger's motion asked that an ordinance be drawn up embodying these provisions and that it be passed by the council. Discussion of the motion revealed the fact that every member was in favor of such a law and a conference will be held with the city attorney at which it will be drafted. The motion is the result of the automobile and street car collision last week in which the glaring headlights on both automobiles and street car are blamed.

Joseph st. was changed to Mishawaka av., River st. in Towle's addition, to Maple st., and Washington park to Merrifield park by an ordinance passed unanimously by the council. By calling Joseph st. Mishawaka av., to conform with the street names in River park, a thoroughfare several miles in length without two names is given. When South Bend paves their street the highway will be as popular for motorists as Lincoln way is now.

City Controller Walter Michael reported that there were some \$10,000 worth of Utility Co. bonds which should be retired and urged the way and means committee to action on the matter. These bonds were not sold and the city is powerless to use the money, but by retiring them, the interest which has been accumulating, nearly \$5,000, can be turned into the treasury.

W. L. Kimball, city treasurer, read his report for the months of April and May which showed a balance on hand of \$13,002.58 in the city account, \$14,657.19 on hand in the improvement account, and \$20 balance in the contractor's account. City Controller Michael submitted his report which showed receipts of \$14,244.72; disbursements of \$13,509.92 and a balance of \$13,093.58. Claims were allowed to the amount of \$10,836.84.

The council urged all citizens to trim trees, in a motion passed and instructed Street Commissioner Doolittle to enforce it.

The car left the State House, Boston, Mass., Friday morning, June 2, and followed a route including Philadelphia, Gettysburg, Pittsburgh, Canton, O., and Fort Wayne to Schererville, Ind., where the car will leave the Lincoln highway and run into Chicago. The purpose of the run is to make note of the varying conditions, and to encourage the early completion of the sections which are not yet up to the standard. The run is being made in daylight hours, beginning at sunrise and ending with twilight.

The car left Mishawaka at 8:09 Tuesday morning, on prompt schedule time, and was due to arrive in South Bend at 8:12. At 8:40 it left the latter city for Laporte, and from thence will proceed to Valparaiso, arriving in Chicago at 2:39 Tuesday afternoon.

## ROBBERY SUSPECT TO BE TRIED THURSDAY

John Scott, Pal of Jack Weaver Pleads Not Guilty to Charges.

John Scott arrested in connection with the robbery of the Abraham Fisher store several weeks ago, pleaded guilty to a charge of petit larceny when arraigned before Judge Feig in police court Tuesday morning. The case was continued until Thursday morning.

He was arrested by Deputy Sheriff Frank Leader, of Elkhart county in Elkhart Monday noon. Police have been on his trail ever since the hold-up of the store and the capture of Jack Weaver, who is now awaiting trial in the circuit court on a petit larceny charge. Scott was with Weaver at the time of the robbery although the latter said his partner did not have anything to do with the attack. Scott is a better runner than Weaver and made good his escape down the railroad tracks. Police of this vicinity have been on the lookout for him and when he landed in Elkhart Monday he was promptly nabbed. Scott has served two penitentiary terms, one for the rifling and burning of the general store at Jamestown, Ind., and was sentenced from the Elkhart county superior court on Sept. 13, 1912 for housebreaking.

## ABANDON ALL HOPE FOR BRITISH WAR MINISTER AND AIDES ON CRUISER

(CONTINUED FROM PAGE ONE.)

count Kitchener of Khartoum, K. P., G. C. B., O. M., G. C. S. I., G. C. M. G., G. C. I. E., was born at Crother house, Ballylongford, County Kerry, Ireland, June 24, 1850, a son of Lieut. Col. Kitchener of the English army. From his father, who was an Irishman, Lord Kitchener inherited the dash and fire which characterize the typical soldier of Celtic blood, while from his English mother, who came from a Suffolk clergyman's family, he inherited coolness and persistence.

Being the son of a soldier and ambitious for a military career, young Kitchener was educated at the Royal Military academy, Woolwich, which corresponds to the West Point military academy in the United States. Having completed his course of training, he entered the Royal Engineers in 1871. During the first 10 or 11 years of his service he was engaged in making military surveys in Palestine and Cyprus, leading a roving and exploring life in which he found a great deal of enjoyment. His long-lying for active work as a soldier, however, brought him, in 1882, the command of the Egyptian cavalry

and thenceforth he was a man of action.

In 1884 he served on the staff of the British expeditionary force on the Nile, which vainly attempted to rescue Gen. Gordon at Khartoum, and was promoted successively major and lieutenant colonel by brevet for his services. In 1885 he was commissioner in the delimitation of Zanzibar and, returning to Egypt in the following year he was made commandant at Suakin, which post he held until 1888. While leading his troops at the battle of Handoub, in 1888, he was seriously wounded in the face by a bullet. In the following year he was given the Cross of the Bath for his part in the action at Toski under Gen. Grenfell. For four years he was adjutant general, and in 1892 he succeeded Sir Francis, afterwards Lord, Grenfell as sirdar of the Egyptian army, and completed his task of reorganizing the forces of the khedive.

For several years Kitchener had been preparing for the recovery of the provinces of Egypt which had been lost to the power of the Mahdi. With the capture of Dongola in 1895 his active campaign toward this end began. Advanced to the rank of major general, he completed the defeat of the dervishes at the battle of Omdurman and captured Khartoum. After the victory of Omdurman in 1898 Kitchener was raised to the peerage as Baron Kitchener of Khartoum, and received the thanks of parliament and a grant of \$150,000. It was after that battle that Kitchener found Major Marchand and a French force at Fakhoda, on the White Nile. In his hand and Lucy Arata, who are to be married soon. Miss Bickel will be married to Ralph Holland, and Miss Arata to Henry Bickel.

## Becomes Chief of Staff.

In the autumn of that year the Boer war broke out, and after the "Black Week," with its disastrous defeat of the British troops under Gen. Buller, Lord Roberts was appointed commander-in-chief in South Africa. While engaged in maintaining lines of communication with Cape Colony Kitchener came into frequent engagements with the Boers and on one occasion he narrowly escaped capture by Gen. De Wet, whom he later defeated. When in December, 1900, Lord Roberts returned to England, Kitchener succeeded to the position of commander-in-chief. In the negotiations culminating in the peace of Vereeniging he again gave proof of his diplomatic ability. He was advanced to the dignity of viscount, promoted to the substantive rank of general "for distinguished service," and received the thanks of parliament and a grant of \$250,000.

## Commander in India.

In 1902 he was appointed commander-in-chief of India and during the seven years in that capacity he proved himself thoroughly efficient in reforming and reorganizing the British and native forces. In 1905 he was promoted field-marshal and succeeded the Duke of Connaught as commander-in-chief and high commissioner in the Mediterranean. After inspecting the forces of his empire, and assisting the omions to draw up schemes of defense, Lord Kitchener declined to take up the Mediterranean command. He had charge of the military arrangements at the coronation of King George, and carried the third sword at the ceremony in the Abbey. Lord Kitchener was unmarried and had the reputation of being a confirmed woman-hater. He was a rather stern, hard-working man and a strict disciplinarian, standing high in the esteem but not in the love of his soldiers.
